Title: Hazardous Waste Management System; Testing and Monitoring Activities
Action: Final Rule
Affected: 40 CFR Parts 260, 264, 265 and 266
Effective: June 13, 1997
Comment: This amendment adds new and revised methods as Update III to the Third
 Edition of the EPA-approved test methods manual, "Test Methods for
 Evaluating Solid Waste, Physical/Chemical Methods" (EPA Publication
 SW-846), and deletes several obsolete methods. It also incorporates the
 Third Edition as amended by Updates I, II, IIA, IIB and III.

Title: Hazardous Waste Management System; Carbamate Production, Identification and Listing of Hazardous Waste; Land Disposal Restrictions; Authorization of State Hazardous Waste Programs; and CERCLA Hazardous Substance Designation and Reportable Quantities

Action: Final Rule

Affected: 40 CFR Parts 261, 268, 271, and 302

Effective: May 29, 1997

Comment: EPA is amending regulations to conform with the federal appeals court ruling "Dithiocarbamate Task Force v. EPA" that invalidated certain carbamate waste regulations under RCRA. Under the court's decision, and amended in this rule, the vacated hazardous waste listings and regulatory requirements based on these listings are to be treated as through they were never in effect. States regulations, which may be more stringent, are not necessarily affected by this ruling.

Title: Notice of Availability of Waste Minimization Software and Documents

Action: Notice of availability for public comment of a draft software package and other draft documents pertaining to priorities for waste minimization

Comment: EPA is announcing availability of a software package which will prioritize and rank chemicals according to their persistence, bioaccumulation, toxicity, and quantity. A crosswalk is also available to identify which RCRA waste codes are likely to contain these chemicals.
